## OLYMPIC PENINSULA HIKING

"We had it all - beach, rain forest, sun and smiles. We were first-time hikers and felt completely at ease - a great way to experience Mother Nature." - Libby Brady, Sonoma, CA

The Olympic Peninsula is recognized the world over for its unique beauty and ecological diversity. We've carefully chosen a stunning variety of hikes that give you a taste of all the area has to offer.

### Highlights

- Lush temperate rain forests
- Wilderness beaches of the Pacific Coast
- Tide pools, sea stacks and petroglyphs
- Ancient glaciers
- The Olympic Mountains

### What to Expect:

The rich diversity of the Olympic Peninsula is second to none. The dramatic coastline of the Pacific Ocean features sea stacks, wide open beaches, tide pools, and Native American petroglyphs. The virgin temperate rain forests (the largest in the world) are nurtured by up to 200" of rain and are home to some of the world's largest conifers which can be seen draped with deep green moss as well as a multitude of wildflowers.

The peninsula's high country offers viewpoints from which you can see both the Strait of Juan de Fuca and Canada to the north and the peaks and glaciers of the Olympic Range to the east. Unique diversity extends to the flora and fauna as well. Resulting from eons of geographic isolation are many different unique sub-species that still reside on the peninsula including the Roosevelt Elk and the Olympic Marmot. This is an unforgettable trip through one of the most breathtaking natural treasures to be found in the world.

### TRIP DETAILS

#### Duration:

5 days, 5 nights

#### Available Trips:

August 8-13, 2010

June 26 - July 1, 2011

#### 2010 Price:

\$1,895

#### Air Gateway:

Seattle, WA

#### Accommodations:

5 nights in carefully chose inns.
